Good afternoon,

I apologize for not responding earlier, but I don't seem to have an email from you prior to this one. However, Dr. Hasty forwarded the email and list. The books will be removed indefinitely pending review.

Have a good evening,

Todd Halvorsen

Mr. Halvorsen,

I was just following up on my previous email that I sent to you and Mr. Hasty regarding a number of library books that I and other board members feel really need to be reviewed. I sent it from my personal email, terrinboyz@gmail.com as I was having car issues the first part of this week and did not have my school laptop with me, but I felt it was urgent and needed to be addressed ASAP. So you may want to check your junk folder. But I will list the books here again.

The following are by the same author, Ellen Hopkins

Crank

Glass

Fallout

Triangles

Burned

Rumble

Smoke

Tricks

Red, White and Royal Blue by Casey McQuiston

George by Alex Gino

Lucky by Alice Sebold

Looking For Alaska by John Green

This One Summer by Mariko Tamaki

Mr. Hasty has print outs from a couple of these books, Triangles as well as Red, White and Royal Blue for a quick reference.

I appreciate your attention to this matter as I feel it is urgent that we deal with this content being available to our students.

Sincerely,

Terri Cunningham-Swanson
